AN EVENING WITH SILK SONIC !

Album Review : An Evening With Silk Sonic ! In the end of the year 2021, Bruno Mars and Anderson .Paak have released An Evening With Silk Sonic, the fruit of their collaboration since 2020 and the lockdown due to the pandemic. They wanted to make an album which would sound like a concert, because they were missing the stage. And they have succeeded ! The album was made to be played on the stage, with an efficient introduction and the track « Blast Off », which ends up the album with a beautiful song which mixes love and expresses the desire of the artists to escape from this world« Blasting Off Straight to some Good Vibrations ». This album is a critical and commercial success, although the sales figures are not yet made public by the labels. The most famous song of the album is the single "Leave the Door Open", which was released on the fifth of March 2021, and is Diamond certified in a lot of countries. The clip also made over 500 million views on youtube. Silk Sonic also opened the Grammys 2022 on the third of April with a performance of their track "777". The duo's performance reminds us of classic Las Vegas characteristics,

between the song mentioning the number seven, an important numeral for gamblers, in addition to the musicians' festive outfits that featured playing card-inspired hearts, spades, diamonds and clubs. Many celebrities such as Trevor Noah were very impressed by the awesome performance and he told on the stage, "Man, that was amazing. Even if you don't have a girlfriend, they just stole her from you". The duo won four awards at the awards show this year. Silk Sonic were given trophies for Best R&B Performance and Best R&B Song, both for 'Leave The Door Open' at the earlier event. Later, they won for Record Of The Year and Song Of The Year for the same track.

THE_GRAMS_TIMES

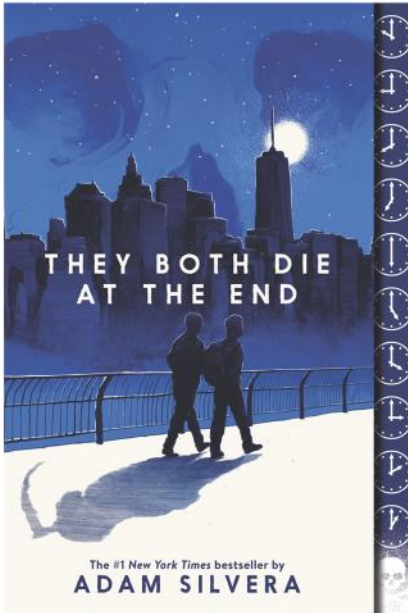

Show time?

During the week of the 4th to 7th april, took place the concert of the gram's choir. It was amazing and they raised funds in order to make a dvd of the show, you'll be informed as soon as it possible when they released it!

For more details go check the Instagram account @chorale_de_grandmont

TIME FOR SOME READING !

The Grams' Times decided to present you our book selection! Indeed, our group work has selected 3 different types of books for you. There is a personal development book, a manga and last but not least a fictionromance. The first book

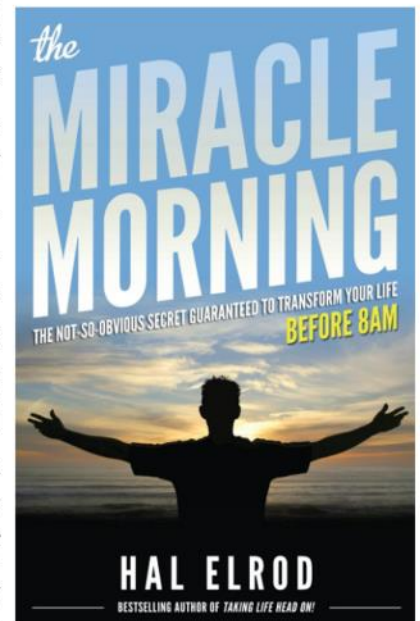

we selected for you is called "they both die at the end". We know that most of you have heard about this book but there are always people who haven't read this masterpiece. In fact, this story is about two boys who were called to tell them that they are going to die today. After some adventures the boys met but as the title said they both die at the end. No spoil, you will see if they actually die or not. But you should read this book if you like romance, and fiction. The second book we chose is the famous "miracle morning" written by Hal Elrod. This book is about personal development in order to succeed by waking up early. This book is really interesting and rewarding. The author tells his own story and how he became successful.

He gives you tips to make you wake up earlier and easier. We think that you should read this book in order to make your dream come true! By the way you can get this book for free with the "pass culture" Slice of Horror or Meiruko-chan for its Japanese name which means "The girl who can see them" is a horror and comedy manga written and illustrated by Tomoko Izumi and counts six volumes so far.

This series tells the story of Miko, a teenage girl who one day wakes up with the ability to see

horrifying monsters and spirits that haunts her and the people in her city. Despite this, Miko tries to ignore the existence of these ghosts and live out a normal high school life. So, if you want to discover the sweet daily life of a not so ordinary teenage girl with some creepy stuff, don't hesitate and go and read this manga ! See you soon !

ITALY AND ALGERIA EJECTED OF THE WORLD CUP!!!

Some teachers playing futsal against their classes!

The 19th of March 2022, the French rugby-men won the six nations tournament by winning their last game against England. They won the tournament with 25 points, followed by the Ireland with 21 points, both of them far ahead England and Scotland, with 10 points for each of them. Finally, there was Wales with 7 points and Italy with 4 points.

They didn't just win the tournament, they also won the Grand Slam because they won all their games.

Moreover, Antoine Dupont was elected "best player of the tournament".

Let's talk about football. The World Cup will take place between the 21st of November and the 18th of December 2022. It's late on the year because it will take place in Qatar, a very hot country.

Some countries were qualified a long time ago but some of them had to get through the play-offs. During those games, we had some surprises. For example, Italy was eliminated by North Macedonia. Cameroon has also ejected Algeria. The Portugal won against North Macedonia.

But, with the war going on in Ukraine, some games were postponed. So, we don't know who.

between Ukraine, Scotland or Wales will be selected for the World Cup.

Still with football, France won the friendly game against South Africa (5-0). Kylian Mbappé was the hero of the game. He was involved in all the goals and scored two of them. Didier Deschamps, the head coach, said that Kylian Mbappé "had legs on fire".

Let's talk about sport in Grandmont now. The UNSS's French championship of swimming begun the 30th of March 2022. Unhappily, Grandmont won't be in the selected high schools.

There also was the run and bike one which begun the 5th of April, and finished the 7th of April. Grandmont was represented by a team composed of Charlotte, Manon, Kévin and Guillaume. They finished 7th. Well done to all of them.

Moreover, the dance team is selected to represent the region at the French championship. Our team at a national tournament, so cool!

And now, even more results! Our archers won the French archery tournament. Our school is vice champion academic in ultimate.

Finally, there has been a futsal game between some teachers and students of the class 606. Unfortunately, the students lost to the teachers with the score 6-7. It was a good match though, congratulation to both sides!

HEALTH/COSMETIC

Let's talk about health, it is very important to learn how to take care of yourself and so we are going to give you some tips ;

- to have a beautiful face it is necessary to wash your face in the morning and in the evening with a micellar water or a washing gel but we advice you to go see a dermatologist.

- For a beautiful face use the Guasha and a roller! This is really THE technique to have a beautiful face.

- Then , it is necessary to ave a good diet like drinking 3 litres of water and a lot of fruits with vegetables and try to limit as much as possible the sweet biscuits or sweet drinks.

- Then , to say in shape and have a good health practise sports to keep a good mental and physical health but we also want to pass on the message that all the bodies are beautiul and that you are not obliged to practise sports, it's just i you wish to do it i only or you and not to correspond to the criteria o beauty that the society tries to establish , you remain beautiul.

To have a beautiful skin it is necessary to use a good products that are adapted to your skin types. Watch out there are several types of skin, such as oily skin, dry skin, mixte skin to know your skin types, you will have to do a crash test :

- step1=take a tissue
- step2=split the tissue
- step3=cut the tissue in 4 part
- step4=place the tissue on the T-zone of your face (forehead, cheek, chin)

Result: if after 10 seconds you have residues with water, it means that your skin is oily if after 10 seconds you have residues ,it means that your skin is mixte skin if after 10 seconds you don't have residues, it means that you have dry skin . We will help you find your ideal skincare routine:

- moisturizing soap
- facial cleanser (micellar water, rose water)
- serum that your skin need (The ordinary, sephora...)
- cream

UKRAINE SUCH A BIG DISASTER, A HELPLESS POPULATION

The situation in Ukraine is TRAGIC, Russia invaded Ukraine on 24 February 2022. In 2014, Russia had already invaded Crimea that is situated right beside Ukraine. The region of Donbass has a lot of pro-Russian inhabitants who wish to become Russian. This entry into war is the result of long months of tension between two countries, Russia does not accept the rapprochement of Ukraine with Western democracies and even less their desire to join NATO, an unacceptable decision for Vladimir Putin who sees it as a threat to their brothers. At least 23K dead people, 10M displaced Ukrainians. • War in Ukraine, in the city called Marinka, Russia is accused OF SHOOTING with phosphorus bombs Phosphorus weapons are incendiary weapons whose use is prohibited against civilians, but not against military targets, under a convention signed in 1980 in Geneva. Russia had denied on March 25 any violation of international law after being repeatedly accused by Ukraine of having used such ammunition in the context of its offensive. • Wagner group, a military organisation who is currently deployed in Ukraine to support the Russian army, and who has recently ordered to assassinate the Ukrainian president prepared the ground for Russia and took control and installed a new government. On March, British military intelligence indicated that the Wagner group was intervening in Eastern Ukraine "It is anticipated that they will deploy more than thousand mercenaries, including senior leaders of the

organization to take part in combat operations". • Kramatorsk (Ukraine) At least 35 people were killed in a missile attack on Friday on a train station in Donbass where civilians were thronging to flee Eastern Ukraine from the target of Russian forces an "inhuman" massacre denounced by the president Volodymyr Zelensky. This blood strike comes at a time when international outrage was already strongly following the images of atrocities of which the Russian army was accused in localities from which it withdrew around Kyiv, the capital where senior European officials were expected to show their support to Ukraine in the face of the Russian invasion. It was the train station in Kramatorsk under Ukrainian control which was the target of the attack. The emergency services mentioned 35 people killed and 100 injured. Abandoned suitcases littered the platforms and the surroundings of the station and the sidewalks were stained with traces of blood and the forecourt in the front of the station, the remains of a missile were still visible on which one could read in Russian "For the kids". "It's very important that people think that even if we defend our nation, we keep our human face" said by Zelensky to his population This is a fresco from J.R a French artist who has deployed this fresco in the central-city of Lviv, this project has made the cover of the American magazine "Time". The NATO is afraid of Russia because they have the nuclear weapon and if they attack Russia, this weapon will be used. So that can be THE END OF THE WORLD!!!

SECRET UNDERGROUND

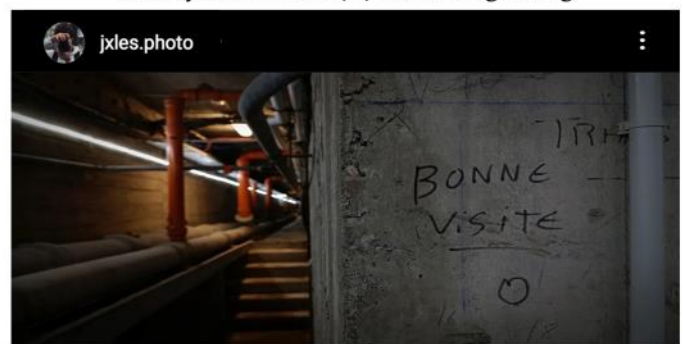

Lycée Grandmont is a large school, the largest in the region and the third largest in France. With its 2500 students and its gargantuan size, you can imagine that it hides little secrets and amusing details that few students, and even teachers, will have the opportunity to discover during their stay at grandmont. But I had the chance to discover some of them, and I'm going to share these little anecdotes with you that I find very interesting!

You may know this, but the high school has forbidden underground passages that many students, including myself, fantasize about. Yeah it's just basements, but you know, humans are attracted to the unattainable. Anyway, I was able to get permission to access these underground passages as part of a Geography assignment. There are underground passages everywhere, in Building m, Building f, boarding houses,... there are some everywhere in fact, but the coolest one for me, is the one in Building C ! A long underground of 225 meters all in length, filled with pipes and electrical cabinets. The entrances of this underground are located at the extremities of the building, at the foot of the stairs 1 and 5. There is a third one, between Building d (staff apartments) and Building c (and it's useless to try to enter it, the doors are locked with special keys) that only the members of the technical service and the administration have. The one in building M, is located below the canteen. This one is less exciting, there are essentially very noisy machinery, and big dark rooms which are used as

storerooms. For this one, it is impossible to hope that a maintenance worker would have accidentally left a door open to allow you to enter, because this one is in the premises of the technical service. Unless you play James Bond, it's impossible to get in. Anyway, I strongly advise you not to go in without authorization, you could have big problems and above all, it's dangerous if you don't know where you are going. There are high voltage rooms with sometimes bare cables. These places are not accessible to the public, so they are not the safest places.

And by the way, I have a little macabre anecdote about the underground of building C. Several years ago, a human skeleton, apparently of a worker, would have been found at one end of the underground. This one dated back to the construction of the high school. Why was it there? We don't really know. Obviously, the police came to pick it up since, but it is a rather funny, although macabre anecdote.

And if you want to see what the basement looks like, you can check my Instagram account @jxles.photo and on youtube, I made a video about it !
